Wilderness Adventure

Picture your own private cottage to spend a weekend or week in. Try some hiking, or some biking or something else to your liking.

This place is good news for the soul. Find out for yourself – take a stroll. Or, relax on the front porch swing, with or without all the offspring.

Go play hide and seek, volleyball, badminton, soccer, basketball, flashlight tag, hopscotch and frisbee. Shout, "Ollie ollie in come free!"

Neighbors to DeSoto State Park. We've heard some of our guests remark, "Li'l River National Preserve; is way more than we all deserve."

There is an awesome swimmin' hole. Be sure to bring your fishin' pole. From the cliff be sure not to fall, but show us your best cannonball.

Believe me it's not just a lark, you'll love it here after dark. Fireflies, bright stars in the sky. And you'll soon be wonderin' why.

"Why haven't I been here before? This is everything I'd hoped for; peaceful, beautiful, relaxing, and quiet. Not at all taxing."

'Round the bonfire you can sing it or if not just try and wing it. So, our little slice of heaven you can enjoy 'til eleven.

You'll find you all start relaxing. It makes you want to start packing. Start packing to get here I mean. And see what I mean by serene.

Survive to the end of the day, and then one of you'll surely say, "Hey, why don't we do this again?" Respond, "Hallelujah, Amen."
